Station Improvement Project

What's happening?

The LIRR is beginning a station building improvement project at Stewart Manor. The work will include:

- New windows, doors, walls, benches and ceiling
- New LED lighting, air-conditioning and security cameras
- Rehabilitation of the station building exterior
- Complete rehabilitation of the underpass
- New accessible restroom and waiting area
- New station signage

The waiting room will be closed while the work is underway. In the interim, the LIRR will provide a temporary waiting room trailer. Ticket Machines will remain in their current location. The project is scheduled for completion by Fall of 2017.

Thank you for your patience as we work to complete this infrastructure improvement in the shortest timeframe possible.
