TEMPORARY SPEED HUMPS

The Village will be purchasing three temporary speed humps for experimental use throughout the Village in order to test implementation of recommendations in the recent Traffic Studies performed by Creighton Manning. The speed humps will be wide enough for use on Fourth Street and other numbered streets. Once the Village has obtained the costs associated with the speed humps, if a transfer of funds is necessary, this item will be on the November 17 Board of Trustees meeting agenda for consideration and approval.

SEVENTH STREET CROSSWALK MODIFICATION

The Board will implement a recommendation presented in the Traffic Study on Numbered Streets on the Seventh Street crosswalk, running south from Dunkin' Donuts. The Village will prepare plans in preparation for a Request for Proposals (RFPs) to install a speed hump (approximately 25 feet wide) with bump outs of the adjoining curbs to meet the speed hump and extend east at a reasonable distance. The crosswalk and its entrances will be designed to be handicapped accessible.

CORROSION CONTROL STUDY

According to H2M, the Village's water consultant, 558 water samples have been requested by residents and 551 sample kits have been delivered. H2M has also collected/returned 460 bottles. Pace Analytical completed 423 sample analyses and transmitted results to residents. A Department of Health walk through was held on October 24 to look at the completed installation at Clinton Road. A final progress meeting was scheduled for Friday October 28 to walk through all the sites. A final Department of Health walk through was scheduled for October 31.

MAYOR'S COMMITTEE ON ST. PAUL'S TOWN HALL NOVEMBER 16

The Mayor's Committee on St. Paul's will hold its next Town Hall on November 16 at Garden City Middle School at 7:30 p.m. The Committee will hold a Q&A and make recommendations to the Board of Trustees. MAINTENANCE BONDS - WELLS 7, 10 and 11

The Board accepted a \$132,101.37 maintenance bond from A.C. Schultes, Inc., of Woodbury Heights, New Jersey, the contractor for the Well No. 7 Emergency Rehabilitation. The maintenance bond guarantees for 18 months the completed work. The Board also accepted a \$1,886,413.19 maintenance bond from Philip Ross Industries, Inc., of Melville, New York, the contractor for the Interim Emerging Contaminant Removal at Clinton Road Plant (Well Nos. 10 and 11). This maintenance bond also guarantees for 18 months the completed work.

LEAF COLLECTION BEGINS

Crews began leaf collection on Monday, October 31, beginning in the West section and working west to east. During the collection season, the Village's website will be updated weekly to allow residents to track the collection process. We ask that residents observe the following guidelines:

- Place only leaves in the street. Other items such as sticks and old plant material may damage machinery and slow down operation.
- Do not place leaves on medians and malls as this will kill or damage the grass. For reasons of safety, our streets are cleaned of leaves on a more frequent schedule than are the medians.
- Avoid parking cars over leaves as this slows our operation considerably and is also a fire hazard. Cars can be damaged or destroyed by fire as a result of their being parked on dry leaves.
- Please do not obscure fire hydrants by piling leaves around them.
- If you have a gardener, instruct him to place your leaves in the street, and not on the malls. Many gardeners find it convenient to bring leaves in from other communities to which they work for disposal by the Village. This practice is prohibited and the Police Department will issue summonses.
