

April 5, 2024

This week's Board of Trustees meeting included a warm welcome to incoming Village Trustees Vinny Muldoon, Judy Courtney and Jessica Tai. I look forward to working with these new Village Trustees and the entire Board as we focus on the many issues of interest to residents. Judy Courtney, as liaison to the Building Department, is leading the project of updating our outdoor dining rules with help from other Village Trustees, and Ed Finneran is leading the effort to come up with a plan to continue the tradition of promenades on 7<sup>th</sup> Street that adequately addresses the significant challenges that arose in recent years. Vinny Muldoon will act as liaison to the business district, and in addition to assisting Trustees Courtney and Finneran, he will also assist in the ongoing efforts to address the beauty and cleanliness of our business districts.

I have delayed resident appointments to Boards and Commissions to allow residents another week to submit their resumes or letters of interest to our Village Clerk, Kelly Galanek. It's a great time to volunteer in your village government! Are you interested in volunteering to promote beautification efforts in the Village? Do you want to be a part of the outreach and educational programs developed by the Environmental Advisory Board? Is sharing our Village history something you are passionate about? Are you interested in serving our Village on any of the other Boards and Commissions where there are openings (Planning Commission, Architectural Design Review Board, Zoning Board of Appeals, Board of Commissioners of Cultural & Recreation Affairs)? Please email [kgalanek@gardencityny.net](mailto:kgalanek@gardencityny.net) and share your areas of interest and why you think you would be a great fit for any of these positions. You can also contact the Village to recommend another resident who you believe would be a great addition to our volunteer team.

### **BUDGET ADOPTION**

Following a budget hearing on Monday April 1, 2024, the Garden City Board of Trustees adopted a \$70.2 million General Fund Operating Budget and \$15.2 million in General Fund capital projects for 2024-25, which will result in an increase of 2 percent in residents' Village tax, the first increase in three years. Village Treasurer Irene Woo and her team worked closely with Department Heads and Village Administrator Ralph Suozzi to formulate the annual budget. Their work culminates with budget work sessions held in March and the annual budget hearing held each year during the annual Organizational Meeting. After making adjustments, the Board, which now includes three newcomers who were sworn in that same evening, unanimously adopted the spending plan. This spending plan results in a tax levy increase of two percent year over year. (The Village had a zero percent tax levy increase in the prior two years.) The increase allowed per the Tax Levy Limit Law is 4.74 percent for the Village this year. According to Village Treasurer Irene Woo, in the last decade, the actual property tax levy increase has been less than the amount allowed per the Tax Levy Limit Law.

### **SPRING HYDRANT FLUSHING**

Each spring the Garden City Water Department opens and flows (flushes) hydrants. This annual maintenance program is essential to the operation. Annual flushing will begin Monday evening, April 8, and continue through the month of April. Flushing water mains is a way to clean out a build-up of dissolved minerals inside our mains. This build-up is caused by reduced water demand during the winter months. These deposits settle to the bottom of the mains and must be cleaned out so that they don't cause discolored water in the future. Flushing is done between the hours of 11:30 p.m. and 7:30 a.m., to keep the disturbance to your water service to a minimum during normal water usage time. While flushing is occurring in your area, you may have some slight fluctuations in water pressure and temporary water discoloration. If you experience discolored water, run your cold water for several minutes. If it does not clear, wait 30 minutes and try again. Here are some recommendations you can follow during flushing dates in your neighborhood:

- Draw water for cooking ahead of time
- Store bottles of water for drinking
- Be sure to check the water quality before using your washing machine or dishwasher

If you have any questions, please contact the Water Department at (516) 465-4020.

During a November 2022 meeting of the Traffic Commission, members requested Nassau County to consider the addition of two “Left Turn” signals on Nassau Boulevard, southbound and westbound at Stewart Avenue, to be consistent with eastbound and northbound “left turn” signals at that intersection. Additionally, a request was made to Nassau County for the installation of a grid box at this intersection. Installation of the left turn arrows has been approved by Nassau County for both approaches and the required design work by Nassau County is anticipated to begin shortly.
