

December 31, 2024

For those residents looking for an idea for a New Year's resolution, please consider joining your neighbors in advocating on behalf of our wonderful Village as the LV Sands Casino continues to press to bring the second largest casino in North America to the Nassau Hub.

A grassroots organization (Say No to the Casino) that counts among its leadership residents Richard Catalano, Monica Kiely, Richard Williams, George and Lynn Krug has a with extensive information about the negative impacts of a potential Casino in Nassau County, and they have a [link](#) to help residents submit their environmental comments.

Now is your opportunity to submit comments regarding the draft environmental impact statement to [sandscomments@nassaucountyny.gov](mailto:sandscomments@nassaucountyny.gov). Don't delay! The deadline for DEIS comments is January 21st, which will be here before you know it. The DEIS has raised alarms amongst residents not only in our Village but also in surrounding communities about the negative impact of this enormous project.

The impact on local traffic and water in particular highlight how much wiser it would be to award the gambling license to a location that has easy access to public transportation and is not reliant on a sole source aquifer.

I want to thank the residents named above who saw early on how negative this project would be to our Village and who knew better than to believe that this was a done deal.

Your Board of Trustees remains unanimously and unequivocally opposed to the proposed Casino at the HUB, and we continue to work collaboratively on this issue that is so important to our Village.

Happy and Healthy New Year!
