Communicating the many fun activities offered by the Village throughout the year and keeping residents informed about all Village matters is an important part of the mission of your Board of Trustees.

We continue to work on improvements to our website, and we regularly share important information on the website, www.gardencityny.net, through our Village notifications, and on social media, including Facebook, Instagram and X.

Trustees Courtney and Tai have been working with me, senior staff and our public relations consultant, Carisa Giardino, on a new Village app which we believe will transform how residents communicate with the Village, providing easy access to calendars, events, and helpful information, in addition to push notifications for Village alerts.

Please keep an eye out for more information as we prepare to launch the app in coming weeks.

ST. PAUL'S ABATEMNT REPORT

D&B Engineers and Architects has provided completed abatement plans and specifications to the Board of Trustees for review and it is available on the St. Paul's page of the Village website. According to Building Superintendent Giuseppe Giovanniello, D&B took a conservative approach because there are not yet specified plans for the space. It is estimated to cost \$10 million to abate the entire building.

EDGREMERE FIREHOUSE

Lizardos Engineers are expected to provide updated drawings for the proposed Edgemere Firehouse plan this week. Once the Board approves the design, it will be sent to a structural engineer and then back to the Board for final approval of the plans. It is expected to go out to bid the first week in March and the project could begin in late spring, according to Building Superintendent Giuseppe Giovanniello.
