A couple of updates:

We continue to closely monitor the anticipated disposition of the 1st District Marine Corps Base property on Stewart Avenue across from the entrance to Roosevelt Field. Over the past several months Marine Corps personnel have largely been transferred to Floyd Bennett Field and Fort Hamilton in Brooklyn, while a smaller contingent is now located at 990 Stewart Ave. The management of the property has come under the jurisdiction of the MC Installation's Command in Washington, D.C. and the Naval Facilities Command in Groton, CT.

Additionally, the team very recently met with the EPA Regional Director and senior staff regarding the proposed significant expansion of the ground water remediation wells emanating from the Old Roosevelt Field superfund site. Currently there are two water monitoring wells on the east end of the Village. Water Dept. Head Stan Carey, Village Administrator Ralph Suozzi and Environmental Counsel David Yudelso are working closely with Deputy Mayor Judy Courtney, Trustee Bruce Torino and myself. Discussions are ongoing.

On July 22 and 23, 2025, the New York State Public Service Commission will hold in-person public statement hearings to seek input and comments from the community regarding the proposed Propel NY Energy Transmission Project. Those wishing to comment will have the opportunity to make a statement on the record at an in-person public statement hearings Wednesday, July 23, 2025, 1:00 and 6:00 PM at the Nassau County Legislature, 1550 Franklin Avenue, Mineola, NY. Village Promenades: The Chamber of Commerce did a terrific job at last Friday's event. There was a great crowd, band, jumping castle and plenty of culinary delights for kids and adults of all ages...and thankfully the weather and temperature were perfect. Hope to see you at the next "hootenanny" on Friday, July 25th!

### **TEMPORARY CLOSURE OF NORTH AVENUE**

As part of our ongoing efforts to create a safer, quieter and more livable community, the Village has temporarily closed North Avenue between Nassau Boulevard and Kilburn Road. The trial began Monday, July 14 and will continue for approximately three months. We'll be carefully monitoring traffic and the neighborhood impact. This decision, unanimously approved by the Traffic Commission on June 26, 2025, is driven by a clear goal: to significantly reduce cut-through traffic and improve the overall quality of life for residents in this neighborhood.

Cut-through traffic has long impacted the safety, peace, and daily experience of our residents. By limiting through-traffic, we aim to:

- Reduce speeding due to cut-through traffic
- Enhance pedestrian and cyclist safety
- Promote a more peaceful, neighborhood-centered environment

This initiative is being launched as a trial, and we are committed to making data-informed decisions with strong community input. Your voice matters. We welcome all feedback on how this change affects you and your family.

Please share your thoughts by sending an email to the Traffic Commission at [trafficcommission@gardencityny.net](mailto:trafficcommission@gardencityny.net). Let's work together to make our streets safer and our neighborhoods stronger.

### **TRUCK CHECKPOINTS BOOST SAFETY ON VILLAGE ROADS**

Garden City Police Officers, along with DOT and Environmental Police, conducted a truck checkpoint on New Hyde Park Road. Eleven trucks were inspected; six were placed out of service. Thirty tickets were issued for various safety violations. Additionally, one vehicle was impounded due to having fraudulent license plates, and the Environmental Officers issued four summonses for environmental regulatory violations.
