**Introduction**

The Incorporated Village of Garden City, New York (the “Village”), is currently seeking proposals from qualified individuals and entities authorized to do business in the State of New York to provide professional engineering services to design the installation of a new heating, ventilation and air conditioning (HVAC) system for the Water Works Building at 103 11<sup>th</sup> Street, Garden City, NY 11530. The design shall include asbestos and lead paint testing of any area that will be affected by the construction for the new HVAC system. The existing electrical service shall be investigated for use with the new HVAC system. The Vendor shall include the design of additional electric service if needed for the new HVAC system. The Village seeks to receive full bid documents, including technical specifications, drawings and cost estimate for the new HVAC system for the Water Works Building.

The Village is committed to a policy of equal opportunity and does not discriminate against Vendors on the basis of age, sex, sexual orientation, race, color, creed, religion, ethnicity, national origin, disability, marital status, familial status, veteran status or any other basis protected under federal, state and local laws, regulations and ordinances.
