**DESCRIPTION OF PROJECT:**

Replacement of Department Head vehicle.

**PURPOSE AND JUSTIFICATION:**

To provide updated vehicle to staff to perform their job duties. These purchases are to start releasing older models which require large maintenance and are not fuel efficient. Additionally to start allocating vehicles that are 4 wheel drive for all weather performance. Department staff are required to perform multiple inspections to meet NYS and Village compliance for all construction. Building Department staff also respond to emergencies and assist the Police and Fire Department on other matters relating to structures (Commercial and residential buildings ).

**IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES**

Vehicles are usually recycled by removing the oldest fleet for gas and maintenance reduction with newer models. The impact is a one-time upfront purchase cost. Cost to be offset by increased revenues and new application types, inspections fees, etc. Capital allotment to provide the all-wheel drive capabilities, fuel efficiency and lower maintenance cost for in warranty purchase. Long term savings with fuel efficiency and less maintenance for a newer model with less expensive replacement of parts when needed.

#### DESCRIPTION OF PROJECT:

Normal replacement program of Police service fleet. All prices have been based on previous years' pricing plus recent inflation increases. A comprehensive emergency vehicle replacement schedule is essential in assisting the Department in its 24/7 emergency operation and maintaining quality response times. The Department is currently utilizing three Hybrid vehicles.

#### PURPOSE AND JUSTIFICATION:

Unmarked vehicles, no longer suited for emergency use, are available for reassignment to other Village Departments. This reassignment of vehicles has proven to be very beneficial to the Village. These late-model unmarked vehicles, while not viable for use during routine police functions, may be used effectively by an engineer, building department employee, water meter reader, etc. By replacing equipment at regular intervals, downtime due to mechanical failure is greatly reduced, as well as repair costs. This regular vehicle replacement rotation assists the Department to run effectively and allows officers to respond to emergency calls without unnecessary delays due to mechanical deficiencies and/or breakdowns. The new interceptors are equipped with all-wheel drive and function well in adverse weather conditions.

#### IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES

Older marked vehicles are utilized for parking enforcement in an effort to reduce the amount of newly requested police vehicles each year. In addition, utilizing older vehicles for parking enforcement extends the number of years the Department keeps these vehicles in service. The Department continues to research and review more efficient vehicle options available for Police service.

**DESCRIPTION OF PROJECT:**

Annual replacement of computer servers and mobile data computer systems. New mobile data computer systems are equipped with thermal imaging cameras to assist in day/night investigations. Police Aide Vehicles are now equipped with mobile data computer systems that allow for increased patrol time, productivity, and efficiency.

**PURPOSE AND JUSTIFICATION:**

The goal of a comprehensive, cyclical plan of improvement and replacement ensures the highest quality of computer service on an ongoing basis with relatively stable budgeting. In addition, this approach is being extended to the mobile laptop units, LPR, and Livescan systems.

**IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES**

Continual rotational replacement insures maximum availability while keeping equipment under the original warranty. The Village purchases only name-brand units with three-year on-site service from authorized State contract vendors, when available. The license plate reader system assists the department in the arrests of wanted subjects and detection of crimes/traffic violations as well as removing unsafe vehicles from roadways.

\*System consists of servers, workstations, Headquarters, mobile printers, ID digital cameras, routers, hubs, mobile PCs, firewalls, scanners, a livescan unit, and radio/phone recording equipment.

#### DESCRIPTION OF PROJECT:

Purchase of additional interoperable radio equipment.

#### PURPOSE AND JUSTIFICATION:

The Department has transitioned to the Nassau County Police Radio System, which provides interoperable encrypted communications between participating federal, state, and local agencies. Interoperability among law enforcement agencies is crucial in the current environment where national security and disaster preparedness are a necessity. The Department is undergoing a process of purchasing tri-band radios to be compatible with the older VHF backup system, the current 500 MHz system, and the future Nassau County 800 MHz system. It is the position of this Department that even with an interoperable communications system, the original Department police radio system be maintained as a backup communication system. The Department also provides radios to the Department's Ambulance service to maximize communications between the two agencies. To maximize operations, particularly during serious incidents and large-scale events, the department's goal is to have each officer assigned a radio.

#### IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES

The Department's interoperable system, consisting of two base stations, 40 portable radios, and 33 mobile radios, has proven beneficial during emergencies that required working with and coordinating with multiple law enforcement agencies, fire departments, and ambulance services.

#### DESCRIPTION OF PROJECT:

##### Vehicles:

Fire Department Fleet consists of 9 vehicles (4 SUV's for Fire Chiefs, 2 SUV's/Utility, 1 Passenger Van, 1 Pickup for Heavy Duty Plow/Utility, and 1 ATV for Rescue/Mini Pumper). Fire Apparatus Fleet is currently 6 Fire Trucks (3 Engines, 1 Ladder, 1 Quint, 1 Heavy Rescue) and 1 Generator Trailer. **NOTE:** Engine (E-142) was budgeted for replacement in the FY 2021/2022.

##### SCBA Cascade System:

The SCBA bottles that the Department utilizes to enter IDLH (Immediately Dangerous to Life & Health) environments must be refilled after every use. The bottles are refilled utilizing a cascade system based at Fire Headquarters. The current model is nearing it's "end of life" and requires replacing. New system will also assist in accountability & record keeping of bottles & SCBA packs.

#### PURPOSE AND JUSTIFICATION:

##### Engines:

The new E-142 has been designed with the intent on standardizing the fleet as recommended by the Fire Safety Committee. The Department is requesting funds be allocated for two additional engines to be purchased alongside the newly designed engine. There are numerous benefits to a standardized fleet including apparatus familiarization & a reduction in the timeframe for apparatus qualification for chauffeur/operators. Financially, the costs of the apparatus will continue to increase (quarterly each year) as discovered from numerous conversations with various apparatus vendors.

**DESCRIPTION OF PROJECT:**

**Training Site:**

The FD, Building & DPW are developing site plans for the Village Municipal Service Yard to incorporate a training site for the FD and a redesign of the sanitation transfer station. Once complete, this training facility will provide a safe, clean and enhanced area that the Department can utilize to train on numerous topics including hose line stretching, ladders, VEIS, extrication, car fires and many others. Between the in-house training provided by membership, the use of third party vendors and the NCFSA, this site will allow us to provide the most up to date training to the Department. One of the tougher challenges facing the Department is its lack of real estate to provide a consistent and robust environment for training. This new site and training facility will alleviate those challenges.

**PURPOSE AND JUSTIFICATION:**

**IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES**

The total cost estimated for this training site includes \$1,500,000 for concrete pavement that's already included in the capital plan of a prior year project to pave the dump area.

**DESCRIPTION OF PROJECT:**

Replacement and updating of vehicles, mowers, and other specialized equipment is necessary to maintain our facilities in good condition.

**PURPOSE AND JUSTIFICATION:**

Our Department operates 18 hours per day, 7 days per week. Some vehicles operate almost continuously during that time. Older vehicles break down more frequently, causing costly repairs and extended down time. A dependable, well maintained fleet is critical to our ability to perform our tasks.

**DESCRIPTION OF PROJECT:**

Replacement of the water slide on the main pool.

**PURPOSE AND JUSTIFICATION:**

The existing slide was installed for the 1995 season. Over time, the fiberglass slide channels have started to deteriorate, and the support structure will be in need of repairs. It is prudent to plan for the replacement of the entire slide.

**PURPOSE AND JUSTIFICATION:**

Replace building shell in order to sustain operations.

**IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES**

#### DESCRIPTION OF PROJECT:

This project is to scan and convert Village Records from microfilm and paper to digital format. The records identified for conversion to digital form include Board of Trustees Minute Books, Planning Commission Books, Zoning Board of Appeals Minute Books and Board of Trustees Transcript Books (Public Hearings), as well as some active records; permanent records of varying age; archived employee files; various Village Department records, the majority of these records being permanent records. WILL USE AVAILABLE FUNDING FROM 2020-21 TO FUND PROJECT IN FY2021-22, FY2022-23 and FY2023-24.

#### PURPOSE AND JUSTIFICATION:

The above records are housed within six areas of the Village including Village Hall Vault A, Vault B, the Cage, Storage Room B, which in aggregate encompass over approximately 2,400 boxes, 14 lateral cabinets, business documents, large format plans and 390 rolls of 35mm film. Having the files dispersed throughout Village facilities makes accessing and providing requested information difficult, time consuming and cumbersome.

#### IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES

While the initial cost to scan and digitalize these records is to not only safeguard them from the elements, but house them electronically. This fulfills an objective for the records management project but also one within the establishment and continuation of a Disaster Recovery initiative. By creating a digital copy of these files it will enable the management system to be established in an electronic environment, not only on the Village's physical server, which is routinely backed up, but when the Village decides to invest in cloud storage the copying and placement/transferring of these records will be easily facilitated. It is expected that this solution will be a long-term time saving solution providing cost savings through the efficiency and effectiveness of record availability and transparency.

**DESCRIPTION OF PROJECT:**

To implement a new General Ledger System. The current General Ledger System (Keystone) was originally implemented in 1989, and was later upgraded to a GUI version in 1997. Amount is a placeholder for future project.

**PURPOSE AND JUSTIFICATION:**

In a continued effort to improve financial analysis and efficiencies, a new general ledger system is needed that will include robust budgeting and financial reporting capabilities that do not exist today. Upgrading our main financial system will improve our ability to produce Reporting and Analysis in a more timely and efficient manner.

It incorporates the following roadways: Stewart Avenue = \$400,000; Roxbury, Poplar, Salisbury, Roosevelt = \$700,000; Wellington, North Avenue, Oxford Blvd = \$450,000.

#### PURPOSE AND JUSTIFICATION:

Repair broken and dangerous sidewalk which could result in claims against the Village.

#### IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES

Revenues include this reimbursement.

#### DESCRIPTION OF PROJECT:

**2023/24** - The Road Program over the next Fiscal Year incorporates the following roadways: Stewart Avenue = \$2,500,000; Roads remaining from 2022/23 program (Roxbury, Poplar, Salisbury, Roosevelt) = \$1,650,000; New Roads (Wellington, North Avenue, Oxford Blvd) = \$1,650,000. The State Aid CHIPs (Consolidated Local Highway and Street Improvement Program) \$500k is based on the miles paved and will be used to offset costs. There is still \$1.8 Million of available budget that will be used as part of the concrete paving of the Village dump area that will house the Fire Department Training Facility and the rehabilitation and upgrade to the Village Dump.

#### PURPOSE AND JUSTIFICATION:

There are approximately 214 lane miles of Village roads. In order to keep these roads in good condition, they should be maintained on a 20-year cycle with ten miles being repaired each year. Over the previous 4 years the Village has maintained an average of 10.85 miles repaired a year. In addition there are 45 parking lot miles which carry a much more significant cost to repair and do bring down the average lane miles repaired per year.

#### IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES

Repairing road before failure saves money in terms of future expenditures. Over the first 75% of the life of a road, there is a 40% loss in the quality of the road. However, in just the next 12 years of the life of the road, there can be another 40% loss in quality. At this point, the road deteriorates very rapidly. Once a road reaches this point, it can cost 150% to 180% more to make repairs.

This project will allow the Village to disconnect from the Nassau County culvert at its existing location in Garden City and reconnect downstream within the Village of Hempstead.

#### PURPOSE AND JUSTIFICATION:

This will prevent water from the County culvert from backing up onto Meadow Street during heavy rain events and will discharge it at a lower point hydraulically. This will prevent flooding of Meadow Street during heavy rain events which will protect property and will also make the roadway safer for residents, first responders and municipal workers to traverse during rain events.

We have 27 chemical pumps throughout the system at the well sites. These pumps, with the exception of three, are 10 or more years old. A large number of these chemical pumps are coming to the end of their life span. We were able to obtain the pumps this year at a significantly lower price than expected, enabling us to accelerate this program by purchasing 7/year.

**PURPOSE AND JUSTIFICATION:**

These pumps ensure that the proper amount of chemicals are added to the system for the proper treatment of the water.

**IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES**

Preventative maintenance to prevent much larger catastrophic problems.

#### DESCRIPTION OF PROJECT:

GOALS: Maintain, improve or expand technology services; ongoing replacement of obsolete or failing equipment, acquisition of new equipment and infrastructure expansion. Projects: Setting up a cloud-based server will streamline server management with security and support provided by the cloud service; streamlining computer office wiring (deferred from 22-23) and continuing WiFi upgrade and expansion for interior and exterior to serve mobile users inside and outside the Library with work, research and reading and to support library programs. Audio Visual and Media Equipment project (from 2020-21 to 2023-24) now listed under for Meeting Rooms project. In FYs 2024-25, 25-26 and 26-27 the Library will likely have to upgrade most of its PCs to Windows 11 (currently not supported by the Library's primary software).

#### PURPOSE AND JUSTIFICATION:

The Library's technology network is essential to serve of library users. Sharing the network with Nassau Libraries allows for access to materials from other libraries and metrics about our collection and usage. Technology education for children, teens and adults requires current equipment, and infrastrucure to support it. Patrons need Wi-Fi or wired computers, as well as printing, scanning and faxing. Updated Wi-Fi will also support access to outdoor and virtual programs and meetings which increase programming to residents.

#### IMPACT OF PROJECT ON OPERATING REVENUES/EXPENDITURES

Annual equipment maintenance costs (in the operating budget) may increase as more equipment is required.
