B. Qualifications. No person not recognized by the Department of Public Works as a duly qualified sidewalk contractor shall be authorized to construct any sidewalk, curb or curb cut on or adjacent to any street, highway, public place or other Village properties; and such persons before engaging upon such work must first obtain from the Department of Public Works a permit authorizing such construction.

C. Each permit issued in pursuance of this article shall at all times be in the personal possession of the parties actually prosecuting the work, and available for inspection.

Section 3. Section 178-10.B. shall be amended to read as follows:

B. No permit shall be issued for an opening on any roadway which has been newly constructed or repaved by the Village during a period of five calendar years previous to the date of submission of the application, except for permits for emergency openings as defined in § 178-10.B.(1) below. This subsection does not include any excavation on the right-of-way abutting said newly constructed highway. The Superintendent of Public Works may waive or modify the requirements of this subsection for the installation of new utility services connections to residential properties.

- All restorations shall be made from curb to curb as necessary to avoid ragged edges on the restored area. The area to be restored shall be increased as necessary to avoid residual strips of existing pavement either direction.
